Detail Action

1. This Office Action is in response to the Response Amendment A filed on 12/15/2003. Claims 2-20 have been added as new claims. Claims 1-20 are presented for examination.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.
- 3. Claims 1-20 are rejected under 35 U.S.C. 102(a) as being anticipated by Rivette et al. (US 5623,679), herein after referred as Rivette.
- 4. As to claim 1, Rivette teaches a method and system for creating and manipulating text and image documents in electronic form for display, comprising:

a database (UNIX database 11 and library 30 of Fig. 1) having stored therein at least one intellectual asset protocol (Standardized Generalized Markup Language

Art Unit: 2141

SGML, which specifies the data rules and formats for the Equivalent File, maybe utilized to create a compound document that contains both the Equivalent File and bit scanned images of tables, flow charts, equation, etc.), wherein said at least one intellectual asset protocol defines at least one data exchange set of rules and formats (types of synchronization information) for a type of intellectual asset data object (patent documents) (Rivette, Fig. 1, C11: L36-67, C12: L1-8, C17: L40-67 and C18: L1-54); and at least one engine, wherein said at least one engine determines whether an

intellectual asset data object of said type conforms to said intellectual asset protocol

(Rivette, C21: L3-37).

- 5. As to claim 2, Rivette teaches the system of claim 1, wherein said type of said intellectual asset data object is selected from the group consisting of a patent, a patent application, a trademark, a trademark application, a copyright, a trade secret, a license agreement, and a joint venture agreement (Rivette, C10; L11-17).
- 6. As to claim 3, Rivette teaches the system of claim 1, wherein said database is accessible through the Internet using personal computers in a home or office environment (Rivette, C1: L31-39).
- 7. As to claim 4, Rivette teaches the system of claim 1, wherein said database is relational, i.e., indexed database (Rivette, C20: L8-17 and C25: L50-57).

Art Unit: 2141

8. As to claim 5, Rivette teaches the system of claim 1, wherein said database

supports hypertext references such as SGML (Rivette, C17: L40-61).

As to claim 6, Rivette teaches the system of claim 1, wherein objects within said 9.

protocol conform to at least on Extended Markup Language (XML) Document Type

Definition (DTD) (Rivette, C17: L40-61).

9. As to claim 7, Rivette teaches the system of claim 6, wherein said DTD

comprises a union of structured bibliographic data of said intellectual asset data objects

(Rivette, C15: L1-9 and C16: L7-31).

10. As to claim 8, Rivette teaches the system of claim 1, wherein said system further

comprises an input for receiving intellectual asset data objects (extracting/receiving

PTO text files and PTO image files from PTO magnetic tapes), a format of said input

intellectual asset data objects being normalized for entry into said database (PTO text

and image files being paginated to produce and index the corresponding PTO

Equivalent Files which are being stored in the library 30 and the database 11 of Fig. 1)

(Rivette, C11: L10-67 and C12: L1-8).

As to claim 9, Rivette teaches the system of claim 1, wherein said system further 11.

comprises an output for presenting information from said intellectual asset data objects,

Art Unit: 2141

said information from said input intellectual asset data objects being formatted according to a DTD (Rivette, Fig. 38, C4: L12-54 and C11: L61-64).

- 12. Claim 10 is a corresponding combination system claim of system claims 1 and 8-9; therefore, it is rejected under the same rationale.
- 13. Claims 11-17 are corresponding system claims of system claims 2-7; therefore, they are rejected under the same rationale.
- 14. Claims 18-19 are corresponding method claims of system claims 10 and 13; therefore, it is rejected under the same rationale.
- 15. Claim 20 is a corresponding computer readable media claim of method claim 18; therefore, it is rejected under the same rationale.

Application/Control Number: 09/545,608

Response to Arguments

16. In the remarks, applicant argued in the substance that

(A) The application is a continuation in part of USSN 09/057,557, filed April 9,

1998, less than one year later than the issue date of the applied reference, US

5,623,679, April 22, 1997.

As to point (A), claim 1 rejection as being anticipated under 35 U.S.C. 102(b) has

been withdrawn.

17. Applicant's amendment necessitated the new ground(s) of rejection presented in

this Office action. Accordingly, THIS ACTION IS MADE FINAL. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37

CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE

MONTHS from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later

than SIX MONTHS from the date of this final action.

Application/Control Number: 09/545,608

Art Unit: 2141

18. Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Quang N. Nguyen whose telephone number is (703)

305-8190.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

SPE, Rupal Dharia, can be reached at (703) 305-4003. The fax phone number for the

organization is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or

proceeding should be directed to the receptionist whose telephone number is (703) 305-

3800/4700.

Quang N. Nguyen
